Subject: Permit Amendment, Keigley Quarry, M/049/001

Dear Mr. Hedberg,

Please find attached the comments addressed to the specific areas of the permit amendment for Keigley Quarry you needed further information on.

Also, included is an historical audit that was requested by the State Lands and Forestry, and, for your information, a table showing the depth to the ground water from the U.S. Geological Society from February 14, 1967, until October 25, 1989, showing an approximate depth of 230 feet below the surface.

Note: In your cover letter dated April 16, 1992, you referenced Keigley Quarry M/049/001 Salt Lake County. This should read Keigley Quarry M/049/001 Utah County.

Thanks for your help.
